SkillXa Technologies

Where Students Become Professionals

A 3-Month Online Internship Program • 9 In-Demand Tech Domains • 100% Career Focused

3 Months	9 Domains	6+	100%
Duration	Tech Tracks	Certificates	Online & Flexible

About the Program

This fully online, 3-month internship is a real-world career launchpad designed to help students break into the tech industry. Students will work on live projects, receive daily training, and walk away with a portfolio, certificates, and job-ready skills.

The program is built with students in mind, offering a flexible online schedule, supportive mentors, step-by-step guidance, and a growing community. No prior work experience is needed to join.

9 Tech Domains — Choose Your Track

AI / ML Intern

Python, TensorFlow, Scikit-learn, NLP

Train real ML models, deploy AI solutions, and work on computer vision

Fullstack Developer

React JS, Python, SQL, FastAPI

Build complete AI-powered web apps from scratch

Data Analyst

Python, SQL, Power BI, Excel

Build dashboards and turn raw numbers into business decisions

UI / UX Design

Figma, Adobe XD, Wireframing, Prototyping

Design beautiful, user-friendly digital experiences

Backend Development

FastAPI, Python, PostgreSQL, REST APIs

Engineer high-performance APIs and scalable backend systems

Frontend Development

React JS, HTML, CSS, JavaScript, Tailwind

Craft pixel-perfect, responsive UIs

Cloud Computing

AWS, Azure, GCP, Docker, CI/CD

Deploy, manage, and scale applications on the cloud

Cyber Security

Network Security, Ethical Hacking, OWASP, CTF

Protect systems and defend against real-world cyber threats

Mobile App Dev

Flutter, Dart, Firebase, AI APIs

Build cross-platform iOS & Android apps with AI integrations

The 3-Month Journey

Month 1	Month 2	Month 3
Foundation & Skill Building Daily classes to learn domain tools and fundamentals, coupled with guided exercises and daily doubt-solving sessions.	**Real Project Development** Teams receive a unique, non-repeated project to design, build, and iterate upon with mentor guidance.	**Polishing, Demos & Career Prep** Finalize projects, build portfolios, prep resumes and LinkedIn profiles, and complete mock interviews.

What's Included

Daily Live Classes	Structured daily lessons with expert instructors
Doubt-Solving Sessions	Dedicated daily sessions so no question goes unanswered
1-on-1 Mentor Guidance	Personal guidance from industry professionals
Unique Team Projects	Exclusive projects with zero repetition and 100% ownership
Career Preparation	Resume building, mock interview simulations, and LinkedIn profile optimization
Free Portfolio Website	A personal portfolio website built during the internship — free and forever yours
AI Tools Exposure	Hands-on training with the latest AI productivity tools

What You Earn Upon Completion

- Internship Completion Certificate — Official proof of 3-month industry-grade training to share on LinkedIn
- Performance Card — A detailed scorecard of skills, project quality, and growth
- Free Personal Portfolio Website — Professionally designed and hosted portfolio showcasing your live work
- Mock Interview Certificate — Recognition of clearing the interview readiness assessment
- Letter of Recommendation (LOR) — A personalized letter from a mentor to boost job applications
- Hands-On Project Experience — Proof of work via a live project built from scratch

Why Students Love SkillXa

- No prior experience needed — training starts from the ground up
